ABOUT ME

My name is Juan Cruz, and I'm a software engineer with a passion for building websites and web applications.

Today, I have several years of experience as a software engineer, working with both front-end and back-end technologies to create dynamic and engaging web experiences.

As a developer, I'm passionate about creating clean, efficient code that delivers a seamless user experience. I'm always looking for new ways to optimize performance and streamline workflows, whether that means experimenting with new libraries or developing my own custom solutions.

As a developer, I'm passionate about creating clean, efficient code that delivers a seamless user experience.
